THE ATLANTA CONSTITUTION.

BY W. A. HEMPHILL & CO.] ATLANTA, GEORGIA, TUESDAY, JUNE 28, 1870. [VOLUME III---NUMBER 7

Evening Edition.

Atlanta, Georgia, June 27, 1870.

☞ For interesting matter, see fourth page.

☞ THE XIX CENTURY for July is received. It is one of the best magazines published in the country.

☞ The Chinese at North Adams, Massachusetts, learn to make shoes very rapidly. Why not?

☞ The number of deaths from lightning, which have occurred during the last two month's is unprecedented. It suggests the idea of a lightning epidemic.

☞ The saleswomen of many of the stores of the great northern cities denominate themselves white slaves. Their employers are worse than Egyptian task-masters.

☞ Somebody says that the cruising of vessels of the United States Navy, in the Mediterranean, is a dishonest kind of yachting of gay parties at the expense of the government.

☞ The July number of the Eclectic Magazine, a monthly published by Jno. M. Scudder, Cincinnati, Ohio, is before us. It abounds in choice selections on a variety of interesting subjects. Single subscription, $2 per annum.

☞ Some of the Radical journals in the North want an investigating committee to inquire if Grant, at the request of A. T. Stewart, has appointed Copperhead cadets to the Military Academy at West Point. What next?

☞ It is contended by some meteorologists that the ploughing up of the great prairies of the Northwest favors the production of rains, while the cutting down and destroying of extensive forests is provocative of droughts.

☞ A committee of Congress has had a fellow up before them, who swore he was a Ku-klux. He is a witness on the side of a Radical who is contesting the seat of a Conservative member of the House, from Texas. Thus it is, all the Ku-klux who have ever been unmasked prove to be Radicals, or friends of the Radicals.

☞ The New York Herald, in the employ of the faction now trying to form a third party to run Grant for the Presidency in 1872, is actively engaged in reproducing romances of the war, such, for instance, as the story of the plot alleged to have been formed by high officials of the Confederate Government, to burn up the city of New York!

☞ The "interviewers" of the Northern press, who have been to North Adams, Mass., where the Chinese shoe-makers are at work, say that the Moguls learn rapidly, and that their labor will amply repay the capitalists who are employing them. The strikers, whose action provoked the experiment, are in dismay, and their families are likely to suffer. Much excitement prevails, but as yet no violence has been committed.

☞ Six students in Columbia College, after pouring night and day for a whole year over a Greek tragedy, recently contended for the Charles Anthon prize of $300. The examination lasted fourteen hours, during which 600 pages of foolscap were wasted. All this time they were about as usefully employed as certain politicians who are wasting their mental energies in much paper and printers' ink trying to resurrect the old Federal party, long since defunct. Its principals are "effete" and its practices were "Bourbonish."

☞ Pharisaical Radicals profess to be rejoiced at the refusal of the House of Representatives to re-admit Whittemore to a seat. If they are honest and sincere, why do they not expel Butler, of Tennessee, who is also guilty of selling a cadetship? Democrats in every instance have rebuked members of their party without mercy, who have been guilty of cadet selling, and do not boast of it. Radicals swell up and proudly boast of their virtue in rejecting Whittemore, thus proving that a virtuous act, though only now and then performed, makes even the wickedest feel good.

Political Body-Snatching.

The Centralists, alias Consolidationists, (modern Imperialists in disguise,) insist that, during the darkness of the night of the late civil war, they resurrected from its dishonored grave the dead body of Old Federalism, that imprudently indulged an appetite for tyranny in the days of John Adams, was choked in attempting to swallow A. Burr, and finally died of burns received when treasonably handling "Blue Lights" off the coast of New England, during the war of 1812.

These political body-snatchers are trying to palm off its dessicated, loathsome and "defunct" anatomy upon the free people of America as a living "thing of beauty," and to persuade them to embrace its mouldy, pulverizable, ghastly skeleton.

Queer Domestic Arrangement.

Some years since, a gentleman in this city married a widow lady, who had one child, a girl of a dozen years. At the time of the marriage the husband's newly-acquired step-daughter was sent out of town to a boarding-school, the couple not desiring any embarrassment upon entering the new state of marital happiness. After being away for five or six years, the girl returned to town and to her parents' house, having now grown to be an accomplished and beautiful young lady. Presently it was evident that her step-father had fallen desperately in love with her. Her mother, or his wife, very soon saw the situation, and after a brief struggle with herself, prepared to accept its unfortunate consequences. Terrible to relate, having procured a divorce for herself, she permitted her husband to marry her daughter, to whom she also gave over a young child which she had borne during her second wedlock. She continued to live in the house as the friend to all the parties; but it soon happened to be the ex-wife's turn to be courted by another aspirant for her hand, to whom she was, after a time, married. Both of the parties and all parties continue to dwell together in one household, all the details of the affair from beginning to end having been arranged satisfactorily and without the least misunderstanding. Is not this a fearful incident as well as a queer one?—*Wash. Cor. Cincinnati Commercial.*

Mr. William Ford, of Early county, died very suddenly on last Sunday, in his house, during the absence of his family. It is supposed that he was struck by lightning, as there was a severe thunder storm during the time he was alone, and a bruise on the side of the face showed some sign of his having been so struck. He was fifty-odd years of age.

It is estimated that at least five millions of dollars are held within a radius of thirty miles of, and not including the city of Columbus. Excellent business men state the amount at ten millions, and some go as high as fifteen. It must be remembered that since August, 1865, 281,356 bales of cotton have been brought to Columbus, and this alone, at 20c. per pound, is worth over twenty-eight millions.

"BAD BLOOD."

"The Life is the Blood."

FROM it we derive our strength, beauty, and mental capabilities. It is the centre of our being, around which revolves all that makes existence happy. When this source is corrupted the painful effects are visible in many shapes, prominent among which is

SCROFULA.

This is a taint or infection of the human organism, and probably no one is wholly free from it. It exibits itself in various shapes—as Ulcers and Sores, Decayed Bones, Diseased Scalp, Sore Eyes, Weak and Diseased Joints, St. Vitus' Dance, Foul Discharges from the Nostrils, Eruptions, Glandular Swellings, Throat Affections, Rheumatism, Heart Affections, Nervous Disorders, Barrenness, Disorders of the Womb, Dropsy, Syphilitic Affeions, Liver Complaint, Salt Rheum, Dyspepsia, Neuralgia, Loss of Manhood and General Debility.

It has been the custom to treat these diseases with Mercury and other Mineral substances, which, though sometimes producing a cure, often prove injurious and entails misery in after life. The long known injurious properties of these so called alteratives and purifiers has led the philanthropical man of science to explore the arena of nature, the result of which has been the discovery of a vegetable product which possess the power of eradicating these Taints from the Blood.

BAFAHNESTOCK'S VERMIFUGE.

WHY is it that so many children die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained, it is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, can not be too observing of the first symptoms of worms; for so surely as they exist, can they be safely and certainly removed from the most Delicate Infant, by the timely use of

B. A. Fahnestock's Vermifuge.

It is perfectly harmless, contains no Mercury, being a purely Vegetable Composition, and may be administered with the utmost safety to children of all ages.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

CAUTION.

Should occasion require you to purchase B. A. Fahnestock's Vermifuge, be particularly careful too see that the initials are B. A. This is the article that has been so

Gentlemen: Having witnessed almost daily, for the last fifteen years, the great efficacy of the preparation you are now putting up, known as "Abbett's Medicine," it affords me pleasure to state that I know of no combinations or preparation equal to it in the treatment of Liver Diseases of whatever character, and would cordially recommend it to all who are suffering from derangement of the Liver, and especially the Dyspeptic.

THE ATLANTA CONSTITUTION.

BY W. A. HEMPHILL & CO.] ATLANTA, GEORGIA, TUESDAY, JUNE 28, 1870. [VOLUME III---NUMBER 7

Evening Edition.

Atlanta, Georgia, June 27, 1870.

☞ For interesting matter, see fourth page.

☞ THE XIX CENTURY for July is received. It is one of the best magazines published in the country.

☞ The Chinese at North Adams, Massachusetts, learn to make shoes very rapidly. Why not?

☞ The number of deaths from lightning, which have occurred during the last two month's is unprecedented. It suggests the idea of a lightning epidemic.

☞ The saleswomen of many of the stores of the great northern cities denominate themselves white slaves. Their employers are worse than Egyptian task-masters.

☞ Somebody says that the cruising of vessels of the United States Navy, in the Mediterranean, is a dishonest kind of yachting of gay parties at the expense of the government.

☞ The July number of the Eclectic Magazine, a monthly published by Jno. M. Scudder, Cincinnati, Ohio, is before us. It abounds in choice selections on a variety of interesting subjects. Single subscription, $2 per annum.

☞ Some of the Radical journals in the North want an investigating committee to inquire if Grant, at the request of A. T. Stewart, has appointed Copperhead cadets to the Military Academy at West Point. What next?

☞ It is contended by some meteorologists that the ploughing up of the great prairies of the Northwest favors the production of rains, while the cutting down and destroying of extensive forests is provocative of droughts.

☞ A committee of Congress has had a fellow up before them, who swore he was a Ku-klux. He is a witness on the side of a Radical who is contesting the seat of a Conservative member of the House, from Texas. Thus it is, all the Ku-klux who have ever been unmasked prove to be Radicals, or friends of the Radicals.

☞ The New York Herald, in the employ of the faction now trying to form a third party to run Grant for the Presidency in 1872, is actively engaged in reproducing romances of the war, such, for instance, as the story of the plot alleged to have been formed by high officials of the Confederate Government, to burn up the city of New York!

☞ The "interviewers" of the Northern press, who have been to North Adams Mass., where the Chinese shoe-makers are at work, say that the Moguls learn rapidly, and that their labor will amply repay the capitalists who are employing them. The strikers, whose action provoked the experiment, are in dismay, and their families are likely to suffer. Much excitement prevails, but as yet no violence has been committed.

☞ Six students in Columbia College, after pouring night and day for a whole year over a Greek tragedy, recently contended for the Charles Anthon prize of $300. The examination lasted fourteen hours, during which 600 pages of foolscap were wasted. All this time they were about as usefully employed as certain politicians who are wasting their mental energies in much paper and printers' ink trying to resurrect the old Federal party, long since defunct. Its principals are "effete" and its practices were "Bourbonish."

☞ Pharisaical Radicals profess to be rejoiced at the refusal of the House of Representatives to re-admit Whittemore to a seat. If they are honest and sincere, why do they not expel Butler, of Tennessee, who is also guilty of selling a cadetship? Democrats in every instance have rebuked members of their party without mercy, who have been guilty of cadet selling, and do not boast of it. Radicals swell up and proudly boast of their virtue in rejecting Whittemore, thus proving that a virtuous act, though only now and then performed, makes even the wickedest feel good.

Political Body-Snatching.

The Centralists, alias Consolidationists, (modern Imperialists in disguise,) insist that, during the darkness of the night of the late civil war, they resurrected from its dishonored grave the dead body of Old Federalism, that imprudently indulged an appetite for tyranny in the days of John Adams, was choked in attempting to swallow A. Burr, and finally died of burns received when treasonably handling "Blue Lights" off the coast of New England, during the war of 1812.

These political body-snatchers are trying to palm off its dessicated, loathsome and "defunct" anatomy upon the free people of America as a living "thing of beauty," and to persuade them to embrace its mouldy, pulverizable, ghastly skeleton.

Queer Domestic Arrangement.

Some years since, a gentleman in this city married a widow lady, who had one child, a girl of a dozen years. At the time of the marriage the husband's newly-acquired step-daughter was sent out of town to a boarding-school, the couple not desiring any embarrassment upon entering the new state of marital happiness. After being away for five or six years, the girl returned to town and to her parents' house, having now grown to be an accomplished and beautiful young lady. Presently it was evident that her step-father had fallen desperately in love with her. Her mother, or his wife, very soon saw the situation, and after a brief struggle with herself, prepared to accept its unfortunate consequences. Terrible to relate, having procured a divorce for herself, she permitted her husband to marry her daughter, to whom she also gave a young child which she had borne during her second wedlock. She continued to live in the house as the friend to all the parties; but it soon happened to be the ex-wife's turn to be courted by another aspirant for her hand, to whom she was, after a time, married. Both of the parties and all parties continue to dwell together in one household, all the details of the affair from beginning to end having been arranged satisfactorily and without the least misunderstanding. Is not this a fearful incident as well as a queer one?—*Wash. Cor. Cincinnati Commercial.*

Mr. J. M. Davis, of Rome, has in his possession a gourd one hundred and sixteen years old. It was cut in the Colony of Virginia in 1754. The gourd and handle was originally about three feet long, but during the last war about fourteen inches of the handle was broken off. It is in a perfect state of preservation.

Mr. Jasper Kinnabrew, of Elbert county, last week threshed, from one acre of old worn out land, that made about five bushels of corn to the acre last year, 56 bushels of wheat by measure, and 59 bushels by weight. He used 200 bushels of raw cotton seed as a measure, and the Johnson White wheat.

The Columbus Enquirer learns that a convention of the Independent Order of Good Templars will be held in Atlanta, on Wednesday next, 29th instant. Among the speakers for the occasion, Bishop Pierce, of Sparta; Dr. Wills, of Macon; Colonel Julius W. Wright, of Columbus; and Mr. Samuel Lumpkin, of Americus.

Mr. William Ford, of Early county, died very suddenly on last Sunday, in his house, during the absence of his family. It is supposed that he was struck by lightning, as there was a severe thunder storm during the time he was alone, and a bruise on the side of the face showed some sign of his having been so struck. He was fifty-odd years of age.

It is estimated that at least five millions of dollars are held within a radius of thirty miles of, and not including the city of Columbus. Excellent business men state the amount at ten millions, and some go as high as fifteen. It must be remembered that since August, 1865, 251,056 bales of cotton have been brought to Columbus, and this alone, at 20c. per pound, is worth over twenty-eight millions.

Receipts at all ports for the week, 12,847 bales, against 15,536 last; 17,995 previous week, and 23,000 over last year. "BAD BLOOD."

"The Life is the Blood."

FROM it we derive our strength, beauty, and mental capabilities. It is the centre of our being, around which revolves all that makes existence happy. When this source is corrupted the painful effects are visible in many shapes, prominent among which is

SCROFULA.

This is a taint or infection of the human organism, and probably no one is wholly free from it. It exibits itself in various shapes—as Ulcers and Sores, Decayed Bones, Diseased Scalp, Sore Eyes, Weak and Diseased Joints, St. Vitus' Dance, Foul Discharges from the Nostrils, Eruptions, Glandular Swellings, Throat Affections, Rheumatism, Heart Affections, Nervous Disorders, Barrenness, Disorders of the Womb, Dropsy, Syphilitic Affeions, Liver Complaint, Salt Rheum, Dyspepsia, Neuralgia, Loss of Manhood and General Debility.

It has been the custom to treat these diseases with Mercury and other Mineral substances, which, though omstimes producing a cure, often prove injurious and entails misery in after life. The long known injurious properties of these so called alteratives and purifiers has led the philanthropical man of science to explore the arcana of nature, the results of which has been the discovery of a vegetable product which possess the power of eradicating these Taints from the Blood.

B. A. FAHNESTOCK'S VERMIFUGE.

WHY is it that so many children die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained. It is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, can not be too observing of the first *symptoms of worms;* for so surely as they exist, can they be safely and certainly removed from the most Delicate Infant, by the timely use of

B. A. Fahnestock's Vermifuge.

It is perfectly harmless, contains no Mercury, being a purely Vegetable Composition, and may be administered with the utmost safety to children of all ages.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

"Our Bill."

Governor Bullock's organ, of yesterday morning, calls upon the "faithful" to make all suitable preliminaries for an uproarious jubilation over the President's approval of the Georgia bill that passed the House on the 24th. With the organ, we anticipated the passage of that bill by the Senate without amendment, and its signature by the President without hesitation. The organ dubs it "our bill," but what there is in it, aside from the militia clause, that entitles it to this kind of endearment from Radical lips, it is difficult to conceive.

The bill says: "But nothing in this act contained shall be construed to deprive the people of Georgia of the right to an election for members of the General Assembly of said State, as provided for in the Constitution of said State."

The Constitution, (art. 3, sec. 1, par. 2,) declares: "The election for members of the General Assembly shall begin on Tuesday after the first Monday in November of every second year, except the first election, which shall be within sixty days after the adjournment of this Convention; but the General Assembly may, by law, change the time of election, and the members shall hold until their successors are elected and qualified." This plain provision of our Constitution is, by "our bill," recognized as the rule for the government of the people of Georgia. From the language of the Constitution above quoted, it is impossible to resist the conclusion that an election must be held next November for members of the General Assembly, as this is the "second year" contemplated.

In confirmation of this view, the ordinance of the 10th March, 1868, providing for the first election may be looked to, especially as it ordains that an election be held for members of the General Assembly, etc., "as provided in the Constitution." After providing regulations, the ordinance says: "And the persons so elected, or appointed, shall enter upon the duties of the several offices to which they have been respectively elected, when authorized so to do by Act of Congress, or by the order of the General Commanding, and *shall continue in office till the regular succession provided for after the year* 1868, and until successors are elected and qualified. So that said officers shall, each of them, hold their offices as though they were elected on Tuesday after the first Monday in November, 1868."

It is contended, however, that the officers elected have not served any part of their constitutional term, inasmuch as there has been no legal organization of a State government under the Constitution till last January. There is nothing in the rule recognized by Congress, to-wit: the provisions of our Constitution, above quoted, lengthening the term of office on account of the failure or refusal of Congress to admit the State to representation. "Our bill" contains no such provision; it confines us to the plain requirements of the Constitution as we find them.

Suppose Congress should postpone the admission of the State for ten years, do Bullockites contend that the present members of the Legislature can continue to hold their protracted sessions year after year, and when the State should be admitted, only then enter upon their Constitutional term? The ordinance above referred to anticipates that some time will elapse before the admission of the State, and yet the persons elected shall enter upon the duties of their respective offices whenever Congress or the Commanding General will allow; but it expressly declares that even under this state of things they shall hold their offices only until the regular succession provided for after 1868. It, therefore, we retain our provisional status for a century under the plain letter of the Constitution and the spirit of that instrument, as evinced by the ordinance of 10th March, 1868, all officers would serve their Constitutional term and retire before the "regular succession" "every second year."

Bullock and his gang have never served any part of their constitutional term, indeed! They had none other to serve. The Constitution, as it exists, created the offices they now hold; an ordinance brought on the election "as provided in the Constitution." They entered upon the duties of their offices and swore to support the Constitution; drew their salaries as provided by the Constitution, and heaven and earth resounded with their pious shrieks when the negro was deprived of his constitutional right to sit in the Legislature. If the Constitution has vitality enough to create an office and fill it, it is unfortunate if it is so impotent as to be unable to limit the term of the incumbent. Of course, the present officers are, and have been, lawfully enjoying the honors and emoluments of their respective positions, and they boast of the sufficiency of their tenure, based, as it is, upon the provisions of the Constitution and the choice of the people.

The Constitution is "blessed" by them when it "giveth," but is ignored when it "taketh away." Its enabling sections are all binding, in the Union or out of it, but its restrictive clauses are sadly dependent upon circumstances.

The present Legislature can not prolong its term by changing the time of the election; true, it may fix the election for any season of the year most convenient for the people; but this must be done so as not to violate that clause which requires an election to be held every second year. This provision, as to changing the time of election, was taken from the Constitution of 1865; is by no means an uncommon one in State Constitutions, and confers no power upon the General Assembly to prolong its term a single day. The members hold till their successors are elected and qualified. This does not mean that they may throw every possible impediment in the way of an election and then hold over, but it was incorporated into the Constitution so that no unforeseen circumstance might deprive any part of the people of a representation for any time, and that the State should, at no time, be without a Legislature.

It is well known that, on account of the relation of the time of elections in some of the States to that of the meeting of Congress, these States had no representation in the lower House of Congress, from March to December.

This awkward state of affairs, as to our counties, is prevented by this provision. This, too, was taken from the Constitution of 1865, and is no new improvement in constitution-making. We are gratified that Governor Bullock's organ is satisfied with "our bill."

The Georgia Bill.

The Washington correspondent of the Louisville Courier-Journal says that the action of the House leaves the status of the present Legislature still an open one for itself and the courts to decide, and is in effect a perpetuation of what is known as the Bullock rule in Georgia.

The Washington correspondent of the Richmond Dispatch remarks that action of the House upon the Georgia bill is in such shape that the Senate will not be required to discuss the subject again this session. The bill will go to a conference committee, and will probably be passed finally in about the shape it passed the House, namely, admitting Georgia to representation, providing that an election of members of the Legislature shall take place according to the provisions of this law.

Governor Bullock was not here to lobby his interests, but Blodgett and others of that ilk were active upon the floor, endeavoring to defeat Farnsworth's amendment relative to holding elections as provided in the State Constitution. In this they failed, and were not cordially received by the members, who in general begin to properly appreciate the schemes of Bullock, Blodgett & Co.

The telegraphic correspondent of the Nashville American says that Mr. Dickey's amendment, striking out the words, "In the year 1870," prevailed by a vote of 121 to 17, and Farnsworth's amendment, as amended, was agreed to by ayes 100, nays 88. An amendment by Mr. Lawrence, imposing conditions in regard to suffrage and school rights and privileges was rejected.

Hogansville High School.

HOGANSVILLE, June 25, 1870.

Editors Constitution: The examination of the scholars of the Hogansville High School came off this week with decided *eclat!* The exercises were well attended. Thursday night was made interesting by the little girls, in reading their compositions, and speeches of the young masters. I am not able to say who did best, for all seemed to be well trained.

Mrs. John Hogan was present with her music class, and created quite a sensation among the audience.

The second night was attended by a large concourse of people, although the weather was so very warm. Long before the hour to assemble, or the great Sol had cast his last ray in the distant West, did the people begin to assemble, every one seeming anxious to be first and get a seat most preferable for the occasion, until the whole house was filled, and many there were who could not find a position even to stand.

The young ladies and young men did honor to themselves on the occasion, in the reading and delivery of their original prose. The ladies seem to read and speak as if they really felt the power and force of their subjects. Though all did admirably well, we cannot help but speak of Misses Jennie J. and B. M. whose subjects (Kind Words and Hope) were so well handled and read with such emphasis of feeling as to fill the whole house, and thrill every one with their eloquence.

Miss E. M. sang "Meet me, Josie, at the Gate," in fine style, and the duet by Miss Jennie Pullin and Willie Davis was charming. The Valedictory was read by Miss M. L. in a very touching and effective manner.

The praise of the teachers, Messrs. Pendergass and Freeman, is in the mouths of all. A CITIZEN.

GOVERNOR STEVENSON—*Washington, June* 24.—Efforts are making with Senators to prevent the admission of Governor Stevenson to the Senate from Kentucky, in place of Mr. McCreery, next March. Documents containing charges against Stevenson have already been filed with a Radical Senator, and there are many statements which have not yet been placed in the form of charges, which, if proven to be well sustained, his admission will be very doubtful. Among other charges made is one that he was in Richmond, Virginia, when the war broke out, and that he was a spectator on the rebel side of the battle of Bull Run; that when he returned to Kentucky he took with him a Colonel's commission from Jeff. Davis, with an understanding that he was to raise a regiment for the rebel army, but that he subsequently abandoned the project.

NOT A BAD IDEA.—The death of Mr. Dickens, before the completion of his story, "The Mystery of Edwin Drood," which was being published simultaneously in Europe and this country, has suggested to the publishers of New York the propriety of effecting an insurance upon the life of their authors, for the term covering the time necessary to complete a current serial, and which is liable to be cut short by the sudden death of the writer.

☞ An attempt to embody the principle of cumulative voting into the constitution of the Protestant Episcopal Church in the Pittsburg Diocese was defeated in the Convention last week by a decided majority.

Social Circle High School.

SOCIAL CIRCLE, GA., June 25, 1870.

Editors Constitution: Yesterday was a gala day at this place. The examination exercises of the High School at this point, presided over by the Rev. W. D. Atkinson and Mrs. Hammond, was the attraction that brought so many to this point. The school (truly termed a High School) is a very interesting one, and promises to be a flourishing institution, judging from the interest taken in the school by the patrons, (many of whom are at a distance,) and the community in general. This point is very attractive to those who wish to patronize a high school; made so by the healthful location; the moderate price charged for board; the high standard of society; the general interest taken by all in the moral, as well as the mental advancement of all pupils in attendance; a place that scarcely supports a single bar-room, although on the railroad.

All places of business were closed, and all citizens and strangers were present to witness the interesting exposition of youthful attainments. Many from a distance were present, and gave universal praise to the creditable manner in which the missis and the master, the lass and the laddie, together with the advanced novices of both sexes, acquitted themselves. Declamation was truly an interesting feature—several young men proving themselves already capacitated to indulge in polemics smartly; while younger boys did honor to themselves and instructors, in graceful gestures and fair delivery. But if the speaking was interesting, truly as much so was the composition reading, which was indulged in by the young ladies. I will only speak of one in particular, and that was the subject of "Old Maids and Old Bachelors," which caused your correspondent to determine never to be an old—neither one of them, if you please. One proselyte perhaps.

I could give the names of several young men and ladies who did speak well, and composed and read well; but where all acquitted themseves so well, it might appear to some who were present a distinction without a material difference. To give life and true spirit to the evening exhibition, the excellent music class of Mrs. Garrett did themselves much honor in their performances on the piano. Very small fingers of very little girls, who were propped up to a sufficient height to reach the keys, executed waltzes and schottiches which would have done credit to very advanced scholars, while the young ladies rendered some difficult pieces with very marked effect. I am informed that several of the little girls, who seemed to be not yet ten, are scholars of only four months' attendance, and yet each one played an instrumental piece, and did it well too.

An excellent string band assisted also to give "life in the old land yet" in the evening, directed by Mr. Spencer of the Spencer House (who is no mean musician or landlord, I assure you,) assisted by Mrs. Garrett, in person, on the piano. This is the musical part of Georgia surely, for I have heard more music and good music too, and more singing in ballad, choruses and glees since I have been in Social Circle than I ever heard at any one village in my life—same length of time—population anything like equal. You are welcomed with a song and refreshed with good music in almost any family. And then there is some musical celibrities here too—but I am dwelling too much on music. To-day is devoted to pleasure by those who choose to remain in boating in the four large and beautiful fish ponds belonging to the Spencer House—a great attraction at this point. Also other enjoyments, such as social calls and musical feasts. JAY BEE.

Happenings Here and There.

Forty-two veterans of 1812, chiefly from Kentucky, met at Toledo recently, and had a pleasant time.

Major Sydney Herbert has assumed editorial control and management of the Troy (Alabama) Messenger and Advertiser.

Junebug soup is actually a new dish just out in Germany. It is said to be really superior to crab soups which gournands consider delicious.

Z. F. Smith, President of the Cumberland and Ohio Railroad, is in Cincinnati asking for $1,000,000 towards building the road to Nashville.

Johnie Gray, about ten years old, and a colored boy, were drowned at Montgomery, Alabama, on Saturday, while bathing in a pond east of the Montgomery and West Point Railroad.

Wheat is coming into Milwaukee faster than it can be shipped. At the present writing there are over one million and a half of bushels in store in the various elevators of the city, and still it comes rushing in by the hundred thousand bushels.

A honey plant has been discovered in Marion county, South Carolina, which blooms from May 10th till June 20th. It yields a large supply of the very purest honey, delicious to the palate and clear as spring water. The bush is suitable for yards, as it is quite ornamental.

The Herald reports that, at a picnic party the other day, up the Hudson, the Rev. Henry Ward Beecher was put through a sham trial and sentenced to be kissed by six ladies of Plymouth Church, who were present. Sentence instantly executed. He liked it.

The residence of R. R. Simms, at Cross Plains, Alabama, was burned last Thursday night with its entire contents. It is supposed the fire caught from a vaporine lamp which was left burning in the house. The loss is a heavy one to Mr. Simms, as it consumed everything he had.

The Episcopal Convention of Wisconsin, at its late session in Milwaukee, adopted a resolution that "every communicant (member) of the church marrying outside of our communion or married by any other than a clergyman of our church shall stand pro facto ex-communicated.

☞ Two fashionable young ladies of Hartford, Connecticut, have been laid up for repairs from wearing high-heeled shoes, and the doctor thinks he has got a job that will last him a year to straighten out their little toes. One of the girls was to have been married soon, but the ceremony will have to be performed sitting down, if at all, as she can't stand on her feet.

☞ The Post-office Department of the United States has lost $284,458.79 in one year on the sale of stamped envelopes. The contract was awarded to "other than the lowest bidder," and the people must pocket the loss. But who pocketed the consideration for letting the original contract? That's the point.

☞ Would any one believe it! After calculating that their loss by spring frosts would be exactly $150,000, the cranberry growers of Cape Cod have come to confess that they have the prospect of a good crop.

☞ A child dining out with its mother was asked at dessert, by the lady of the house, if she would have some rhubarb pie. "No, ma'am," she replied, "I don't think I *need* it."

☞ A New York bar-keeper, on a salary of $12 a week, sports a $750 diamond cluster, and recently parted with another for $1000. He is a saving young man.

☞ A man of thirty-seven years died in the hospital of St. Louis, Paris, in raving madness, brought on by the bite of a cat. His symptoms were similar to those of a man suffering from hydrophobia.

☞ At the St. Louis annual tobacco fair last week 160 hogsheads were entered for competition. The first premium hogshead sold for $4.05 per pound.

☞ A farmer in Vevay, Indiana, raises all the materials of clothing on his farm, and with the exception of shoes his whole outfit is of home manufacture.

☞ A boy in Michigan recently died from the effects of the poison of potato bugs.

☞ Wendell Phillips asserts that in Boston "every tenth person is a criminal, and every seventieth a pauper." This is decidedly uncomplimentary to "The Hub." It is worse; it is a crime against "loyalty."

☞ A Wisconsin gentleman who sat down on a bee hive lately now prefers to stand.

☞ Ripe watermelons are being shipped from Galveston, Texas, to New York.

THE Savannah Advertiser says that the local columns of the Atlanta papers are "as stupid as you find them." It modestly overlooked its own claims in that line.

THE Marietta Bible Society will hold its Anniversary Meeting, on Sabbath, 3d of July, and at Cartersville, on Sabbath 10th of July. Rev. W. A. Parks, Agent A. B. S. for Georgia, will attend these meetings.

A PROMINENT Republican and Bullock official expresses privately a desire to visit Augusta at the head of the "militia". We trust our friend "Gregg Wright" will prepare to give him a warm and fitting reception, if he don't dodge it.

WE are pleased to learn that advices received from Dahlonega indicate that Sheriff Harris is rapidly recovering from his rheumatism, and has laid aside his crutches. Siloam Springs appear to be to him above price.

TOM MORROW, a young 15th Amendment, plead guilty before Justice Spencer, yesterday, to an assault and battery on a 16th amendment, (embryo female citizen,) and was sentenced to pay a fine of $20 and costs, or go to the chain-gang for two months.

IN Tennessee, a society has been organized, called the "Patrons of Husbandry," and ladies of sixteen years and upward, and gentlemen of eighteen and over, are admitted to membership. Judge Pittman is a Special Patron of Husbandry, and any one can become a member by depositing with him $1 75.

THE Senior Law Class at the State University have a moot court. The members of the bar and officers of court acquit themselves handsomely. At the last session of the court, Sam. R. Hoyle made a telling jury speech, and young Van Epps made the finest effort in oratory that has been made in the University since General Gordon electrified them with his eloquence.

MONROE FEMALE COLLEGE.—The examination at Monroe Female College begins on Thursday the 30th. Rev. L. R. Gwaltney, of Rome, preaches the Commencement Sermon on Sunday. The Junior Exhibition comes off at 11 o'clock on Tuesday, and the Annual Concert at 8 o'clock P. M. John U. Shorter, of Macon, delivers the Literary Address Wednesday, July 6th.

AN editor was wending his way homeward, yesterday evening, with a bundle of exchanges under his arm, when he was hailed by a gentleman with, "Have you any New York papers?" "Yes, sir," replied the polite and affable quill-driver; "I have two," naming two religious journals. "I don't want them," tartly replied the man. "Well, I do," said the editor. The man had mistaken him for a newsboy.

ANDREW FEMALE COLLEGE.—We have been favored by Dr. A. L. Hamilton, President of Andrew Female College, at Cuthbert, a superior educational institute, with an invitation to attend a "Tableaux Vivant, Classical, Scriptural and Rural, interspersed with music, vocal and instrumental," on Friday night, July 1st From the programme sent us, we gather that it will be one of the most interesting and brilliant entertainments of the season.

CONCORDIA ASSOCIATION.—At the last regular meeting of the Concordia Association, the following officers were elected for the term ending on the 31st December, 1870:

President, Samuel Weil; Vice President, Aaron Haas; Secretary, D. B. Loveman; Financial Secretary, S. Sundheim; Treasurer, Charles Beerman; Stage Managers A. S. Labold and D. Rosenberger; Prompter, F. Schiff; Critic, M. Frank.

LAGRANGE HIGH SCHOOL.—The annual Examination of this excellent institution commences to-day. Prize declamation by the students takes place on Thursday and Friday night. Addresses will be delivered by Colonel James A. Long and Rev. Dr. A. O. Stanley. Dr. H. H. Tucker, President of Mercer University, delivered the sermon on Sunday last. We acknowledge the reception of a special invitation to be present.

SAID a Frenchman during the reign of King Brownlow in Tennessee:

"Monsieur, have you seen ze Kuk-n-luck out in ze country? Brownlow see him every day. If ze lazy negro, what you call ze colored citizen, want something to eat wigout work, Brownlow just cry Kuk-n-luck, and zey swarm to Nashville, and Brownlow feed him, Hay! ze Kuk-n-luck vary convenient—vary convenient for Monsieur Brownlow and ze colored citizen!"

MR. H. I. KIMBALL informs us that, having employed Mr. V. Dunning, late of the Southern Express Company, some misapprehension has arisen in regard to his position, some of the papers having stated that he is to have supervision of improvements at the Fair Grounds. This is an error. Mr. J. C. Kimball still has, and will continue to have, so'e charge of all Fair Ground improvements; and all applications for positions, or for the rental of eating houses, saloons, etc., should be directed to him at the Fair Grounds. Mr. Dunning's position is one of *no less responsibility and trust*, but it has no immediate connection with the Fair Grounds.

THIRTY-THREE VILLA LOTS.—Next Friday, the first day of July, Messrs. Bell & Hammock, and Wallace & Fowler, will sell on the premises, 33 villa lots, in Hurtville, on the Georgia Railroad, 2½ miles from the center of the city.

A train of passenger cars will leave Whitehall crossing at 9 o'clock in the morning, and return at 5 o'clock in the evening, conveying parties to and from the sale, free of charge.

Ample lunch, nice ham and bread and pickles, with ice-water and pure Cincinnati beer, will be freely served.

Time will be allowed to view the Gate City Nursery, near the lots to be sold, which will add to the pleasure of the excursion.

THE Third Anniversary of the Atlanta Bible Society, at the First Baptist Church on Sunday night, was pre-eminently a success, both in the large congregation assembled and in the contributions received. The introductory religious services were conducted by Rev. J. T. Leftwich and Rev. W. M. Crumley. Rev. R. C. Ketchum read the annual report, containing valuable statistical information. Rev. W. F. Harrison, D. D., and Rev. W. A. Parks, delivered brief but pertinent and eloquent addresses. Rev. J. S. Wilson, Rev. W. T. Brantly, Rev. R. W. Fuller and Rev. W. M. Crumley were made life members by the contributions of the Sunday Schools of their respective churches. We learn that the handsome sum of $400 was contributed by the congregation—an increase of over $300 over the contributions last year.

Mr. Local: The Constitution of Georgia declares "there shall be a Judge of the Superior Courts for each Judicial Circuit."

The Atlanta Judicial Circuit has been without a Judge since the 31 of January last—nearly six months. By the laws of Georgia, (Irwin's Code, section 224) when a vacancy of this kind occurs, it is declared "that the Governor shall appoint some qualified person to fill such vacancy."

We have now, and have had for a long time, the vacancy, but the Governor neglects his sworn duty to fill it. A Judge is needed to transact the business of the country; to protect and enforce the rights of the citizen; to punish crime and carry out the law.

Governor Bullock has complained much of violence in Georgia, and that crime goes unpunished, and yet he neglects, for six months, to give us a Judge, the minister of the law by whom alone violence can be suppressed and crime punished. How long shall such gross dereliction of official and sworn duty continue thus to aid and abet violence and crime? How long will Governor Bullock disregard the positive and emphatic declarations that there shall be a Judge in each Judicial Circuit, and the Governor shall appoint some qualified person to fill a vacancy in the office when such vacancy occurs? and how long too will he disregard his own oath?

A REVOLUTION IN COOKERY.—Since the introduction of the patent Sea Moss Farine, a complete revolution has taken place in that department of cookery to which we owe the luxuries of the dessert. The most delicious blanc mange, jelly, custard, Charlotte Russe, light puddings, etc., are produced from this palatable nutriment, at about one-third of the former cost. A great economy of time as well as money is effected by its use. The preparations made from it are pronounced by physicians to be the best possible diet for consumptives, dyspeptics, and persons suffering from biliousness and general debility. Convalescents fatten on them, and gain rapidly in muscular strength as well as in flesh. The Sea Moss Farine Co., 53 Park Place, New York, who are manufacturing this article from the best Irish Moss, in enormous quantities, produce an array of medical and general testimony in its favor, which is perfectly overwhelming, and must set all doubts of its superiority as an alimentary staple (if any exist) entirely at rest.

KOSKOO.—This medicine is rapidly gaining the confidence of the people, and the numerous testimonials of its virtues, given by practitioners of medicine, leaves no doubt that it is a safe and reliable remedy for impurity of the blood, liver disease, etc.

The last Medical Journal contains an article from Prof. R. S. Newton, M. D., President of the E. Medical College, city of New York, that speaks in high terms of its curative properties, and gives a special recommendation of Koskoo to the practitioners of medicine. This is, we believe, the first instance where such medicines have been officially endorsed by the Faculty of any of the medical colleges, and reflects great credit upon the skill of Dr. Lawrence, its compounder, and also puts "Koskoo" in the van of all other medicines of the present day. feb26-d&w6m

UNIVERSAL LIFE INS. CO.
—NEW YORK—
The Original Joint-Stock Life Ins. Co. of the United States.

The business of this Company is EXCLUSIVELY confined to the Insurance of first class healthy lives.

THE DISTINCTIVE FEATURE

of the Stock system of Life Insurance, as opposed to the *Mutual*, is a low rate of premium for a stated sum insured, which is IMMEDIATE, SECURED and CERTAIN; in lieu of a high rate of premium with a promised dividend, which is DISTANT, CONTINGENT and UNCERTAIN; this so-called dividend being merely a return of a *portion* of the excessive and unnecessary premium charged in the first instance

ILLUSTRATION.

Suppose that an individual aged thirty desires to devote $200 a year for the purpose of effecting an insurance on his life; this amount will immediately secure him in the UNIVERSAL the sum of $11,231, payable on his decease. This sum, paid to a company charging the ordinary mutual rates, would secure him the sum of $8,476—difference, *immediately secured*, in favor of the UNIVERSAL, $2,977.

To illustrate the importance to the policy-holder of low premiums in more general terms, it may be stated that by a reduction of *twenty-five* per cent. in the rate of premium, the same amount of money will secure a policy *thirty-three and one-third* per cent. greater, and likewise that a reduction of twenty-five per cent. in the rate of premium is precisely equivalent to an *annual cash dividend of thirty-three and one-third per cent. payable in advance*, or to a dividend of *forty-five per cent.* payable at the end of five years.

By the *Stock* plan the *full cash effect* of the premium is immediately secured to the insured, the Company taking all the risk. By the Mutual plan the full value in insurance of the premium paid, is not secured to the policy-holder, who takes a portion of the risk himself.

THE PREMIUMS

charged by the Universal are as low as the actual experience of insured life in this country will justify, and on the ordinary Life and Ten-Year Non-forfeiture policies are nearly one-third lower than those charged by the majority of Mutual Companies.

Special attention is asked to our "*Return Premium Plan*," by which the amount of the policy is secured simply by the temporary deposit of the annual premiums, which are *returned* in full, together with the amount assured, to the holder of the policy when it shall become a claim upon the Company. Also to the

"REDUCTION OF PREMIUM PLAN,"

by which a reduction of *one-third* is made in the premium after the first annual payment, being, in fact, equivalent to a *dividend of 33¼ per cent.* A clause is inserted in the policies issued by the "Universal," in which these results are *distinctly specified and guaranteed.*

For the last few years the proprietors of the celebrated Plantation Bitters have been experimenting in the growing of Calisaya Bark on the island of Jamaica, and have found, from actual tests, and by no means a mean experience, that this valuable bark can be grown with marked success only upon the mountains from 1,500 to 2,000 feet high. There the forests are often bedewed with the early mist, and this tree arrives at its full perfection. Owing to the largely increasing demand for the bark required for the manufacture of quinine, and also for use in the preparation of Plantation Bitters, the procuring of it has been a source of great anxiety to the proprietors, and seeing, as they did, that the South American supply would soon give out, took the above early precaution to fully supply the demand, and, assisted and encouraged as they are by the English government, at Jamaica, we have not the least doubt but they will succeed.

For a cheap, delicious, and healthful table-dessert there is nothing half so good as Blanc Mange Pudding, Custards, etc., etc., made from Sea Moss Farine. Try it and convince yourself.

Nacoochee, under "The Evening Star."

Do we sometimes think, when our Eden-Tree
Is flourishing wide and green,
How many beautiful souls may be
That our souls have never seen?

Shall we ever know, with its fruits of gold,
And its beautiful flowers between,
How much of "Loving" our hearts can hold
In their verdurous evergreen?

In a world so wide there are hills to hide
And VALLEYS to veil the sweet;
And woe to the Wise with unseeing eyes!
And the swift with unheeding feet!

Seeking so far a lovelier star
Than the Magi might hope to meet!
With the Mamre oak and the angel that spoke
To Abraham at his feet!

Happier we with our Eden-Tree,
A palm, in the desert heat,
Whose souls are blest with an Angel guest,
Whenever a smile is sweet!

'Tis a pleasant thought, when the even-tide
Of glory salutes our prayers,
That we have not mocked in our noon of pride
An Angel, unawares!

And a golden hope, as the night unrolls
Her raiment of Rest serene,
That the Heavens are bright with the beautiful souls
OUR souls have "not yet" seen!

OUR AUGUSTA LETTER.

The Weather—Railroad Case—More Lawyers—Emigration and Workers.

Correspondence of The Atlanta Constitution]

AUGUSTA, June 25, 1870.

Editors Constitution: No complaints hereabout now of cool weather; the word warm poorly conveys its present temperature.

The somewhat celebrated railroad nuisance case is up in the court to-day. I suppose it will be duly transferred to the Supreme Court, where a finality will probably be reached.

In the Superior Court, this morning, a Mr. Kettles and Mr. H Gregg, local editor of the Chronicle and Sentinel, and son of the General, applied for admission to the bar. The young gentlemen were searchingly examined by Judge Hook, General Wright, Mr. Shewmake, and acting Solicitor General Davidson, in the order named. Every question propounded, as far as I could hear, was promptly and correctly answered.

Young Mr. Wright gives promise of making a first-class editor, though I hardly think that he is physically able to stand the exhaustive demands of a profession which has worn out so many men. He will succeed in his new profession.

I do not know Mr. Kettles; therefore can say nothing of him.

THE CONSTITUTION has frequently noted, and if I remember correctly, protested against Georgians abandoning their native State and seeking homes elsewhere. The tide of emigration flows ceaselessly, and with increased volume, toward Texas. We find that strangers are coming in—taking the place of those who have gone. We welcome those "new comers," as, in common parlance, we call them; because they come as workers. Casting their lot with us, they strike our hands with the honest interest of developing our incomparable resources.

I had the pleasure of meeting in the office of those sterling gentlemen, Messrs. L. & A. H. McLaws, real estate agents, Colonel Haas, and his accomplished lady, who have purchased a farm, and will soon take up their residence a few miles from this city. Colonel Haas has served, with great distinction, for a number of years in the French army. He bears the

CROSS OF THE LEGION OF HONOR,

the crowning glory of a true Frenchman. The Colonel and Mrs. Haas, I need not tell you, are accomplished. The Colonel will farm successfully here; for he has a lively appreciation of the evils of monoculture, as set forth by Humboldt and others, to say nothing of the experience of our own people—an experience, too, which has not, up to this time, as a general rule, proven a good teacher, if we may judge from the great breadth of land devoted to cotton this year. But the lesson will be inculcated sooner or later. The most incorrigible farmer-pupil will, moreover, be made to comprehend it fully.

MIGNONNE.

A GRAND EXHIBITION OF NATIONAL INDUSTRY.—The American Institute of New York city, of which Horace Greeley is President, will hold their thirty-ninth Fair during the months of September and October next, at the Empire Rink.

The brilliant success of former exhibitions is a guarantee that a leading feature in the attractions of the Metropolis during the fall will be this Great Industrial Display.

For circular giving classification of articles, rules for exhibitors and full particulars, address Corresponding Secretary, American Institute, New York City.

A HOUSTON COUNTY CORN FIELD.—A friend was telling us of a forty acre corn field he saw the other day, belonging to Colonel W. D. Allen, not far from Fort Valley. This is light upland—a very old field—not a stump in it, and the land pretty thoroughly worn out when Colonel Allen put it in cultivation. This field was laid off in rows alternating three and five feet apart, and cotton seed bedded between the narrow rows at the rate of twenty-five to thirty bushels to the acre, and the rows bedded with Ettiwan Superphosphate. The stalks are not more than twenty inches apart in the row, and there are about 5,500 to the acre. The corn is a sight to behold, and is good for forty bushels to the acre, and our informant thinks more.—*Macon Telegraph-Messenger.*

THE COUNTRY IS SAFE!—Margaret L. Byrd, of Tennessee, the daughter of a Revolutionary soldier, and widow of an officer of the war of 1812, was entitled to eight dollars a month, say twelve—it might even have been twenty. She resided in the South during the war. She will not swear that she did not give some Reb a crust, or a pair of old shoes, as he passed her cottage, or that she did not scrape lint or attend sick men. The House refused by a vote of 75 to relieve her from the test oath. Isn't Congress patriotic? Isn't the country safe? The beauty of the thing is, that if she would only swear, she is all right. Why does she have a conscience? What right has a poor widow to such a costly luxury? *Woodhull and Claflin's Weekly.*

READ THE FOLLOWING CERTIFICATES. Hundreds of others could be given. See what Col. Calhoun says: When a young man, I resided in one of the malarious districts of Mississippi, and while there contracted Liver disease, from which I have suffered ever since. I have tried, I believe, all Liver Medicines, and do not hesitate to say that Dr. Ed. Smith's Liver Tonic is, by far, superior to anything I have ever tried. J. LAWRENCE. CALHOUN, Newnan, Ga.

Dr. E. Smith's Liver Tonic is beyond all question a most excellent Liver Medicine. Having fully tested its virtues, we take great pleasure in assuring those who may be afflicted with Torpid Liver or Constipated Bowels, that no better or safer medicine can be found. J. E. Dent E. SWEET QUININE
IS A RECENT IMPROVEMENT.
Replaces the use of the Bitter Sulphate Quinine, with which all are familiar.
Dose for dose, it is
WARRANTED
Fully Equal in Every Way to Bitter Quinine,
And like it, is the one
Great, Positive, and Unfailing CURE
FOR ALL DISEASES OF MALARIOUS ORIGIN.
Fever and Ague,
Intermittent Fever,
Chill Fever,
Remittent Fever,
Bilious Fever,
Dumb Ague.
And the long train of disorders following these when neglected.

SWEET QUININE
is made solely from PERUVIAN BARK (so is Bitter Quinine,) therefore is of Vegetable origin, and not a Mineral Poison, but on the contrary is proved to be one of the elements found in the blood of all healthy persons.

SWEET QUININE
acts as an antidote to, as well as a cure for malarial or miasmatic poison, the absorption of which by the lungs causes Intermittent Fevers, etc. The only advantage claimed for

SWEET QUININE
over the use of old Bitter Quinine is the entire absence of that intense, persistent bitterness, which in the latter is an insurmountable obstacle to its use with most persons, and always with children.

SWEET QUININE
is in two forms—in Powder, for the use of Physicians and Druggists, and Fluid, for use in the family and for the general public.

KOSKOO!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of country

AS A GREAT AND GOOD MEDICINE!

And the Large Numbers of Testimonials

which are constantly being received from Physicians, and persons *who have* BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

AS A BLOOD PURIFIER,

IT HAS NO EQUAL,

BEING POSITIVELY

The Most Powerful Vegetable Alterative Yet Discovered.

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues loose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the *brain*, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are effected with scrofula in some form.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO,

AS A

Liver Invigorator!

STANDS UNRIVALLED.

Being the only KNOWN Medicine

that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, WITHOUT DEBILITATING the system. While it acts *freely* upon the Liver *instead of copious purging*, it *gradually changes* the discharges *to a perfectly natural state.*

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes, headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the side, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, etc.

KOSKOO!

Is a remedy of *Wonderful Efficacy* in the *cure* of diseases of the Kidneys and Bladder. In these Affections it is as near a specific as any remedy can be. It does its work kindly, silently, and surely. The Relief which it affords is both certain and perceptible.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys can not estimate the *importance* of their *healing action.*

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate too frequently (also natural), or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

Meets with GREAT SUCCESS in the CURE of

DISEASES OF THE NERVOUS SYSTEM,

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work (mental and physical), are causing diseases of the nervous system to increase at a fearful rate.

The symptoms to which diseases of the nervous system give rise, may be stated as follows:

A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical Headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in Answering Questions; Dullness of Hearing; Twitching of the Face and Arms, etc., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, etc., etc.

KOSKOO

Is NOT a *secret quack* remedy. FORMULA around each bottle. Recommended by the best Physicians, eminent Divines, Editors, Druggists, Merchants, etc.

HAVING completed my visits to the country precincts, I will be at the Sheriff's Office, in the City Hall, every day (Sundays excepted) for the next two weeks. Every one required by law to make a return of taxable property in the county of Fulton, should come forward in that time, if they wish to save trouble and expense.
